### 32. Online Teachers' Training Workshop

#### **Report:**

The above-said workshop revolved around the teacher-student relationship and the relevance of positive attitude, extra-curricular activities and stress-management. The resource persons emphasised on boosting the morale of students during the lockdown and this can be done by engaging them in co-curricular activities. In this whole process, teachers could play a vital role to channelize the energies of students in a positive direction and inculcate a good set of values in them so that they could develop a deeper connection with their family and their surroundings.

The individual attention given to students does not only help teachers to tailor their pedagogical techniques to get the optimal learning outcome, but also to hone the overall personality of students. Later on, the personal touch of the teacher often creates a life-long connection between students and their alma mater. Consequently, the institution will have another helping hand in the form of their alumnus society.

The treasure of Literature, Music, Art and Dance has preserved our rich culture, life-skills, and the secret of happiness. These are not only modes of expression, but a medium to keep us alive forever through art forms. One should keep trying to discover and try to remold oneself to adapt in the environmental changes; as the word 'try' itself refers to "Time to Reinvent Yourself". Other elements, suggested by the erudite dignitaries in the meeting, essential to train our youth to bring the best out of them are:

- To have faith in the future endeavours
- Self-discipline
- Stress-management
- Make the task a pleasing venture by converting their hobbies into their habits
- Making them to believe in the power of their thoughts and words. Many a time the conviction behind the utterance gives us power to resolve our gravest problems as well.
- Keep oneself motivated. Sometimes self-motivation is not enough, in such scenario outer motivation by the words of encouragement, a positive remark, by reading a good book, by creating something or in any way works as wonder for the young mind. Do not let your ward to dehydrate of the fluid of motivation by infusing positivity in them.
